I. GENERAL SUMMARY

Table No.

1.	Total Civilian Employees - Australia - July, 1957 to September, 1959	2
2.	Defence Forces - Australia - July, 1957 to September, 1959	2
3.	Total Civilian Employees, Defence Forces and Trainees - Australia - July, 1957 to September, 1959	2
4.	Total Civilian Employees and Defence Forces - Australia - June, 1947 to September, 1959	3
5.	Wage and Salary Earners in Civilian Employment - States and Territories - June, 1955 to September, 1959	4
6.	Civilian Employees of Governmental Bodies - States and Territories - September, 1959	4
7.	Civilian Employees of Commonwealth Bodies - September, 1959	5

II. EMPLOYMENT IN INDUSTRIAL GROUPS

8.	Wage and Salary Earners in Civilian Employment - Industrial Groups - States - September, 1959	7
9.	Wage and Salary Earners in Civilian Employment - Industrial Groups - Australia - August, 1958 to September, 1959	8
	Notes to Tables 8 and 9	10

III. EMPLOYMENT IN LARGER PRIVATE FACTORIES

10.	Employment in Larger Private Factories - Total six States - September, 1958 to October, 1959	11
11.	Employment in Larger Private Factories - States - September, 1958 to October, 1959	11
12.	Employment in Larger Private Factories, excluding food factories - Total six States - September, 1958 to October, 1959	12
13.	Employment in Larger Private Factories, excluding food factories - States - September, 1958 to October, 1959	12
14.	Employment in Larger Private Factories - Five mainland States - Industrial Grouping - October, 1958 to October, 1959	13

IV. WAGES AND HOURS OF LABOUR

15.	Average Weekly Wage Earnings Index Numbers - Australia - 1945-46 to September Quarter, 1959	13
16.	Average Weekly Total Wages paid and Average Earnings - 1952-53 to September Quarter, 1959	14
17.	Average Nominal Weekly Wage Rate Index Numbers - Adult Males - Industrial Groups - States - 30th September, 1959	15
18.	Average Nominal Weekly Wage Rate Index Numbers - Adult Males - All Groups - States - 31st December, 1938 to 30th September, 1959	15
19.	Average Nominal Hourly Wage Rate Index Numbers - Adult Males - All Groups - States - 31st December, 1938 to 30th September, 1959	16

V. UNEMPLOYMENT

20.	Number of Persons receiving Unemployment Benefit - States - June, 1952 to October, 1959	16
-----	---	----

EXPLANATORY NOTES

1. Except where otherwise specified, employment estimates contained in this Bulletin are obtained from three main sources, viz.,
 - (a) monthly data as to persons employed in factories as shown at Annual Factory Censuses;
 - (b) current monthly returns from Governmental Bodies; and
 - (c) current monthly Pay-roll Tax returns.

There are also some other direct records of monthly employment (e.g., for hospitals).

These are supplemented by estimates of the number of employees outside the ambit of the Factory Census, Governmental Bodies and Pay-roll Tax returns. Monthly numbers of factory employees subsequent to June, 1958 are estimated and are subject to revision when the Factory Censuses for 1958-59 and ensuing years are tabulated.

2. All figures in this Bulletin are compiled on an establishment or enterprise basis, and therefore do not cover exactly the same area of industry as do the relevant industry tabulations of the General Censuses of 1947 and 1954, which are based on the returns of individual employees.
 3. The purpose of the estimates of employment in this Bulletin is to measure, as nearly as may be with available data, current monthly trends in employment in the defined field. Industry groups herein are not identical in coverage with Census groups.
 4. The terms "Employment", "Number Employed", "Employees" and "Wage Earners" used herein are synonymous with, and relate to, "Wage and Salary Earners" on pay-rolls or "in employment" in the latter part of each month as distinct from numbers of employees actually working on a specific date. They include persons employed part-time.
 5. Pay-roll Tax returns at present are lodged by all employers paying more than £200 a week in wages (other than certain Commonwealth Government Bodies, religious and benevolent institutions, public hospitals and other similar organizations specifically exempted under the Pay-roll Tax Assessment Act 1941-1957). This Act, when originally introduced in 1941, required employers paying wages of more than £20 a week to lodge returns. The exemption limit was raised to £80 a week from 1st October, 1953 and to £120 a week from 1st September, 1954. The present exemption limit of £200 a week was introduced as from 1st September, 1957.
-

PREFACE

The figures relating to employment published in this Bulletin are estimates. From Bulletin No. 195, February, 1958, the series of estimated employment in "factories" (Tables 7 and 8) shown in previous issues was replaced (commencing with the month of July, 1948) by a series showing actual monthly employment in factories as recorded at successive annual Censuses of Factories to June, 1957, with interim estimates for subsequent months. Adoption of this new series entailed adopting also new series for "Total Manufacturing", "Total Private Employment" and "Total Employment" for Males, Females and Persons, in all tables affected.

From Bulletin No. 208, March, 1959, the interim estimates for the months of July, 1957 to June, 1958 were replaced by actual numbers of factory employees recorded at the annual Census of Factories for the year ended June, 1958. This entailed revisions for this period and consequential revisions in the estimates for subsequent months.

Call-ups for short periods of National Service Training have occurred from time to time since August, 1951, and other variations occur in numbers of personnel in the Services. These are shown in item 4 below and in Table 4 page 3 hereof.

NOTES TO TABLES 8 AND 9

- (a) The figures shown represent the actual monthly employment in factories as recorded at successive annual Censuses of Factories to June, 1958, with interim estimates for subsequent months. In this connexion, a factory is defined as an industrial establishment in which four or more persons are employed, or in which power, other than manual, is used. The employees covered are those engaged in manufacturing activities and exclude those engaged in selling and distribution, etc. The estimated numbers of employees in factories for the period July, 1948 to January, 1958 (shown in issues of this Bulletin up to No. 194) were based on Pay-roll Tax returns. This series was replaced as from July, 1948 in Bulletin No. 195 (February, 1958) and subsequent Bulletins by the Factory Census series referred to above.
- (b) Includes employees in industrial establishments outside the scope of the definition of a factory (given in (a) above) and persons employed by factory proprietors but engaged in selling and distribution, etc., who are excluded from figures shown opposite "Factories". Includes employees in factories in the Northern Territory and the Australian Capital Territory.
- (c) Includes persons employed on private building, and employees of private employers contracting to public bodies, on building construction, alterations, maintenance and repairs.
- (d) Includes employees on construction of roads, bridges, earthworks, etc., and employees directly employed by public bodies on building and maintenance of buildings.
- (e) Includes Hotels, Restaurants, Hairdressing and Other Personal Services (except female private domestics).
- (f) Includes the Northern Territory and the Australian Capital Territory.
- (g) Includes Law and Order, Religion and Social Welfare, Health, Education, Other Professional Services, Amusement, etc., and Personal Service (Hotels, Restaurants, etc., excluding female private domestics). In respect of females only, also includes Forestry, Fishing, etc., Mining, Building and Construction.

III. EMPLOYMENT IN LARGER PRIVATE FACTORIES

By joint arrangement between the Secretary of the Department of Labour and National Service and the Commonwealth Statistician, a regular monthly survey of employment in the larger privately-owned factories of New South Wales and Victoria was instituted in January, 1952. Practically all private factories with 100 or more employees and a large section of those with between 50 and 100 employees were surveyed.

The instruction as to employees to be included in the returns was as follows:- "The number of persons employed is to include all persons on the establishment of the factory who are engaged in the factory or on the factory office staff, providing their employment is directly related to manufacture", and further "..... the number of males and females (separately) employed in the specified factory or mill. These figures are to include factory office staff, but are to exclude selling and distribution staff". The figures obtained relate to the numbers on the pay-roll as at the last pay-day in the month.

The survey was instituted to provide an earlier indication of trend of private factory employment, month by month, than is available from any other source, and in fact the trends shown in employment in these larger private factories are broadly consonant with those shown in estimates of total private factory employment, derived from Pay-roll Tax Returns, for the period for which comparisons are available.

Employment in food-processing factories is subject to considerable seasonal variation. In view of this circumstance, the movements in "all factories excluding food factories" are given equal prominence in the tables with those in "all factories surveyed".

The survey was extended to cover all States with effect from January, 1953. In Bulletins up to and including No. 152, totals were given for the original two States, for the three remaining mainland States and for the five mainland States together. The figures now shown in Tables 10 to 13 relate to all six States.

An industrial analysis, showing movements in each of eight broad groups, is given in Table 14. In continuation of the earlier practice, this table is confined to the five mainland States. At the present stage, figures for Tasmania cannot be incorporated into this table in the same detail because of the risk of disclosure of individual factory particulars.

(a) Includes salaries. (b) Average earnings per male unit employed. Male units represent total male employment plus a proportion of female employment based on the approximate ratio of female to male earnings.

NOTE:- The index numbers for "All Industries" and "Manufacturing" show the movement in average earnings over a period of time. However, they do not give, at any point of time, a comparison of actual earnings in the two groups.

The "All Industries" index is based on Pay-roll Tax Returns and other data. The index for manufacturing industries for the years 1945-46 to 1957-58 is based on the average earnings of male wage and salary earners employed in factories as disclosed by annual factory returns. The figures subsequent to June, 1958 are preliminary estimates based on Pay-roll Tax returns.

TABLE 16 -- AVERAGE WEEKLY TOTAL WAGES PAID AND AVERAGE EARNINGS

The following figures are derived from employment and wages recorded on Pay-roll Tax returns and from estimates of the unrecorded balance. Pay of members of the armed forces is not included. The figures are not seasonally adjusted. A seasonally adjusted quarterly index of average weekly wage earnings is shown in Table 15.

Period	N.S.W. (a)	Vic.	Q'ld.	S.A. (b)	W.A.	Tas.	Aust.

(a) Includes the Australian Capital Territory. (b) Includes the Northern Territory.

(c) Total wages as above divided by total civilian employment expressed in male units. Male units equals the number of males plus a proportion of females based on the approximate ratio of female to male earnings. The same ratio has been used in each State and because the average ratio of female to male earnings may vary between States precise comparisons between average earnings in different States cannot be made on the basis of the figures above.

NOTE:- Comparisons as to trend should be made for complete years or corresponding periods of incomplete years. Quarterly totals and averages are affected by seasonal influences.

AVERAGE NOMINAL WEEKLY AND HOURLY WAGE RATE INDEX NUMBERS

NOTE:- A new index of minimum weekly wage rates has been constructed for adult males. When a corresponding index for adult females has been completed, new indexes of minimum weekly and hourly wage rates will be published in lieu of those shown herein.

The index numbers in the following three tables are based on averages of wage rates and hours of labour for a full week's work, obtained from awards, determinations and industrial agreements.

TABLE 17 - NOMINAL WEEKLY WAGE RATE INDEX NUMBERS : ADULT MALES

INDUSTRIAL GROUPS (a), 30TH SEPTEMBER, 1959.

Base of each index : Weighted average weekly wage, Australia,
All Groups, three years ended 30th June, 1939 = 100.

Industrial Group	N.S.W.	Vic.	Q'ld.	S.A.	W.A.	Tas.	Aust.(b)

XIII. Domestic, Hotels, etc.	353	348	322	330	342	341	345
XIV. Miscellaneous	361	358	342	345	348	360	355
<u>All Groups (b)</u>	<u>386</u>	<u>375</u>	<u>367</u>	<u>369</u>	<u>374</u>	<u>387</u>	<u>378</u>

(a) The average rate of wage for each industrial group in each State is the arithmetical average of the rates of wage payable for specified occupations within that group.

(b) Weighted average. (c) Average rates of wage on which index numbers are based are those prevailing at the principal mining centres in each State and exclude district allowances in the gold mining industry. (d) Average rates of wage on which index numbers are based are for occupations other than masters, officers and engineers in the Merchant Marine Service, and include value of keep, where supplied.
